

PROGRAM COSTS

Each time a teen mom becomes self-sufficient, the community saves up to \$45,800* annually.

Hope House provides free self-sufficiency programs to parenting teen moms in three key areas.

Empower Program: This program provides opportunities for personal, educational and economic self-sufficiency for teen moms. This includes educational assistance through High School & GED and College & Career Programs. Additional supportive services include healthy relationships and personal growth classes, licensed counseling, legal advocacy and financial literacy.

Housing Support Program: This program provides metro-Denver's only Residential Program for teen moms, and additional housing supports through various partnerships.

Early Childhood Education Program: Through the full-time, licensed early learning center and the Early Learning & School Age Program at the resource center, this program focuses on literacy and social-emotional development; early intervention services; and school-age supports for the children; and provides a Parenting Program for teen moms.

***In Jefferson County, a teen mom with one child is eligible for up to \$45,800 a year in public assistance. This amount decreased from the prior year's assistance of \$49,000 due to financial cuts in CCCAP and WIC funding.**

Colorado Child Care Assistance Program \$18,600 /
Government Housing Support \$13,800 / SNAP \$6,400 /
TANF \$6,700 / WIC \$300

This total does not include medical benefits like Medicaid that a teen mom might also receive.
